

# Fernando Ceballos Carreras

## Full-Stack Software Developer

Badajoz, Spain | Spanish citizen | Email: fernandoceballos1989@gmail.com | Phone: +34622381902 | Portfolio: <https://shorai-lab.com> | LinkedIn: <https://www.linkedin.com/in/fernando-ceballos-carreras-920825397/>

### Professional Summary

Full-stack software developer with 7+ years of experience building SaaS products, ERPs, CRMs and operational back-office platforms for urban mobility and business management. Specialized in PHP, Laravel, Vue.js, JavaScript/TypeScript and relational databases including MySQL, PostgreSQL and SQLite. Hands-on experience designing REST APIs, multi-tenant architectures, admin panels, monitoring tools and VPS-based deployments with a strong focus on maintainability, performance and robustness.

### Core Skills

- Backend: PHP, Laravel, REST APIs, middleware layers, SaaS architecture, multi-tenancy
- Frontend: Vue.js, JavaScript, TypeScript, HTML5, CSS3, back-office interfaces
- Databases: MySQL, PostgreSQL, SQLite, relational data modeling
- Infrastructure & Delivery: Git, GitHub CI/CD, VPS deployment, Nginx, production maintenance
- Business domains: ERP, CRM, carsharing, fleet management, monitoring tools, operational automation

### Work Experience

Freelance - Full-Stack Developer | Jan. 2024 - Present | Badajoz, Spain

- Design and develop SaaS applications and custom web solutions using Laravel, Vue.js, TypeScript and PostgreSQL/MySQL.
- Manage a private VPS for deployment, maintenance and operation of production applications.
- Build REST APIs, back-office tools, multi-tenant features and automations focused on operational efficiency.

Grupo Ruiz - Software Developer | Jan. 2019 - Dec. 2023 | Badajoz, Spain | On-site

- Developed cross-platform applications based on PHP, middleware layers and MySQL databases for internal operations.
- Built ERPs for managing and monitoring urban transport services, helping streamline maintenance workflows and improve staff organization auditing.
- Developed the management back office for MINITS, a carsharing service, supporting a successful operational launch and real-time fleet management.
- Implemented user growth tracking, vehicle performance metrics and mobility analysis to support strategic operating decisions.
- Delivered corporate WordPress, HTML5 and CSS3 projects optimized for fast deployment and practical performance.

Freelance - Web Developer | Sep. 2018 - Dec. 2018

- Delivered custom web development, ongoing maintenance and technical support for clients.

### Selected Projects

**Minits:** Pioneering carsharing platform in Spain. Built the back-office ERP for real-time fleet monitoring and management.

- Technologies: PHP, Laravel, JavaScript, MySQL

**Gimnasio Record:** Custom ERP/CRM management system designed from scratch to optimize business operations and reduce operating costs.

- Technologies: PHP, Laravel, JavaScript, MySQL

**AgileApi:** SaaS product that generates endpoints from tabular files such as CSV and XLSX. Designed multi-tenant tier-based architecture, webhook support, LLM-friendly configurable endpoints, file sanitization and deduplication rules.

- Technologies: Laravel, Vue.js, PostgreSQL, REST API, SaaS

### Languages

- Spanish: native
- English: professional working proficiency

- Japanese: basic/intermediate; 2+ years of study and preparing for JLPT later this year
